Is it one of the missions of the FBI to 12 work in concert with and support your law enforcement 13 colleagues in the states? 14 Within the parameters of our policies, 15 yes. 16 Uh-huh. At the time that you and 17 Mr. O'Connell were taking your time to work the FBI 18 chain of command to seek the FBI drone resources, did 19 you feel like you were acting outside of the policies 20 of the FBI? So there was investigative assistance when we were able, meaning we just can't open a case on anything. So when we had a predicated criminal violation, we opened an investigation. Most -- all times, so did the State of North Dakota, 8 and most times ATF, so we worked with them to help investigate those instances of federal legal violations, when able. 12 We did have some trouble if the State would do things without telling us. So it was 14 sometimes difficult to work alongside the State. They liked the ATF agent, and sometimes they would conduct 16 a parallel investigation and not keep us included. 17 Beyond that, we would identify --18 Q. How do you know that? So other than any that may have been spontaneous by someone being on the reservation or nearby the protest, the only formal one that comes to 9 10 mind was Mr. O'Connell's involvement in a meeting with Tribal representatives and State representatives and 12 the U.S. Attorney's Office. (BY MR. SEBY) All right. Mr. Perry, we're back after a short break, and now I wanted to ask you about topic 15.

MR. SEBY: Jose, if you would pop that up on the screen, and I'll also read it.

(BY MR. SEBY) Topic 15 reads, Q. "Communications between the United States," meaning the FBI in this -- in this deposition, "and with, to, or from persons on Corps-managed lands related to the DAPL protests, or representatives or spokespersons for such persons."

Mr. Perry, what did you do to prepare for this specific topic on behalf of the FBI?

The same as the rest: Reviewed

Page 57 1 Okay. How about -- tell me about communications the FBI had with DAPL protesters.

3 MS. BOBET: And I'll just note, I think the scope of this topic is communications specifically 4 with, to, or from persons on Corps-managed lands. It 6 sounds like the question is a bit broader than that. But the witness can answer if he knows the answer.

(BY MR. SEBY) The question is with respect to the topic, and so it's -- yes, it's communications the FBI had with DAPL protesters who were on Corps property, or their spokespersons.

I don't recall having any communications with spokespersons from the protest. That -- that was a very fluid thing, who was in charge, who was speaking for whom, and often you couldn't really tell who that may be.

The only interaction I think we had with people, general protesters, would be spontaneous, and I saw the written document about how there was discussion with someone who wanted to be anonymous, and they met at the casino. Just spontaneous things like that. There were no formal -- besides the meeting I described, I don't recall any formal interactions with protest leaders, protest spokespeople.
